

Meeks Bay Restoration Project Stakeholder Forum

The U.S. Forest Service, in partnership with the Tahoe Regional Planning Agency (TRPA) and the Lahontan Regional Water Quality Control Board (Lahontan), is resuming work on the plan and the environmental analysis for the proposed Meeks Bay Restoration Project initiated in 2018.

The agency-led Project Development Team will be working with a Stakeholder Forum, comprised of key community groups and the public at large, to inform the development of project alternatives and support the resolution of issues stemming from the environmental review process. These nine working Stakeholder Forum meetings, convened by TRPA, will be open to the public.

The first of three public workshops to solicit input on the project will be held on Wednesday, August 19, 2020 from 5:30 pm – 7:30 pm (PDT). A press release and separate notice for this meeting with a link to materials and a project website will be broadly distributed well before the workshop. Summaries of all meetings and

workshops, along with relevant project materials and options for providing feedback, will be made available on the project website (coming soon).

Attend the Stakeholder Forum Meeting

To protect public health and safety during the COVID-19 pandemic, TRPA will be convening the Stakeholder Forum meetings as interactive online webinars.

The first meeting will focus on the results of the recent stakeholder assessment and introduce the planning team. The meeting will be held virtually via Zoom on Wednesday, July 15, 2020 from 9 am – 12 pm (PDT). You may participate in this meeting at the scheduled time by clicking [here](#).

First Stakeholder Forum Meeting

Wednesday, July 15, 2020

9 am - 12 pm
